The participation is free of charge

The Science Shop of Law, Economics and Governance, Utrecht University and the Dutch National Rapporteur on Trafficking in Human Beings are organizing an international conference on

Human trafficking, turning our attention to labour exploitation

Human trafficking may well be one of the most horrific crimes of our times. The full extent of this crime has, however, not yet been recognised. This stems partly from little attention in academic research for human trafficking for labour exploitation. This conference therefore aims at an interdisciplinary debate about human trafficking, with an emphasis on labour exploitation. A combination of both dissemination of research results and suggestions for (further) research, on a broad array of topics: a labour market approach, criminal law efforts, research methodologies and the victims' perspective.

Universiteit Utrecht

About the Science Shop of Law, Economics and Governance

The Science Shop helps businesses, authorities, and societal organisations to answer research questions. The Science Shop offers motivated and talented students of all possible majors the opportunity to carry out scientific research at the behest of an external party. If the student has been selected, they will work under the professional supervision and coordination of the Science Shop. To guarantee the quality of the scientific research, the student will also be supervised by an academic staff member with expertise in the relevant field. Research is carried out at the Bachelor's and Master's level.

About the Dutch National Rapporteur on Trafficking in Human Beings

The Rapporteur's main task is to report on the nature and extent of human trafficking in the Netherlands, and on the effects of the anti-trafficking policy pursued. The reports contain information on relevant regulations and legislation, as well as information on prevention, criminal investigations regarding human trafficking, prosecution of perpetrators and victim support. They also contain policy recommendations aimed at improving the fight against human trafficking.
